

Micro B3 Summer School

From Sampling to Analysing Microbial Diversity & Function

May 27 - June 06, 2014, Hellenic Centre for Marine Research, Crete, Greece

<http://www.microb3.eu/events/workshops/micro-b3-summer-school-crete>

The summer school will focus on preparing and planning integrated **sampling work** and **data flows** with a focus on **bioinformatic** and **oceanographic tools** in the fields of **bacterial** and **plankton diversity, ecology and function**, including **biotechnological applications**.

The group will perform **data** and **sample management**, based on the use of enrichments for analyses during the course, on existing (OSD) data sets and the OSD handbook.

Deadline for applications:
March 15, 2014

INVITED SPEAKERS

Centre Nationale de la Recherche Scientifique (CNRS)

Chris Bowler

Pascal Hingamp

Max Planck Institute for Marine Microbiology (MPI)

Renzo Kottmann

Anna Klindworth

Alfred Wegener Institute for Polar and Marine Research (AWI)

Alban Ramette

University of Bremen

Stephane Pesant

Joint Genome Institute (JGI)

Nikos Kyrpides

NERC Centre for Ecology & Hydrology (CEH)

Dawn Field

Mesude Bicak

Mediterranean Science Commission (CIEM)

Michele Barbier

University of Louvain

Arianna Broggiato

Université du Littoral Côte d'Opale (ULCO)

Urania Christaki

University of Crete (UOC)

Ioannis Karakassis

Technical University of Crete (TUC)

Nikos Paranychianakis

Hellenic Centre for Marine Research (HCMR)

Christos Arvanitidis

Matina Nikolopoulou

Anastasis Oulas

Evangelos Pafilis

Paraskevi (Vivi) Pitta

Paraskevi (Voula) Polymenakou

Apostolis Kristallas

Maria Maidanou

ORGANIZERS

Jacobs University Bremen gGmbH

Frank Oliver Glöckner

Environmental & Marine Project Management Agency (EMPA)

Johanna Wesnigk

Hellenic Centre for Marine Research (HCMR)

Georgios Kotoulas

Jacques Lagnel

Eftichia Mironaki

Christina Pavlouidi
